EDUCATION

Computer and Communication Engineering.

Udon Thani Rajabhat University

2023 - Present

LANGUAGE

- Thailand
- English (basic)

SKILLS

Programming Languages

- Frontend: HTML5, CSS, JavaScript, React, Tailwind, Flutter
- Backend & Languages: Java, Python, C++, PHP
- Database: MySQL, SQL

Tools & Platforms

- Git / GitHub

ACADEMIC & PERSONAL PROJECTS

Mobile Developer

Flutter eCommerce App

- Developed a cross-platform mobile application using Flutter for an e-commerce system.
- Implemented core features such as user authentication, product listing, shopping cart, and order management.
- Integrated REST APIs to retrieve and display dynamic data from the backend.
- Designed responsive and user-friendly UI following modern mobile design principles.
- Debugged and optimized application performance to ensure smooth user experience.

IoT Engineer

ระบบตรวจจับคนล้มด้วย IoT

- Designed and developed an IoT system for real-time data monitoring and device control.
- Programmed microcontrollers to collect data from sensors and transmit it to a cloud platform.
- Implemented communication protocols such as HTTP/MQTT for data exchange.
- Analyzed sensor data and displayed results through a dashboard interface.

Full-Stack Developer

Computer Equipment E-commerce Website

- Designed and developed a computer equipment e-commerce website.
- Built dynamic web pages using PHP, HTML, CSS, and managed data with SQL.
- Implemented product listing, product detail pages, and basic shopping cart functionality.
- Ensured responsive design and cross-browser compatibility.
- Connected the frontend with the database to manage products and display real-time data.

Front-End Developer

Smart-Parking

- Built a real-time Smart Parking web application using React, JavaScript (ES6+), and Tailwind CSS.
- Integrated Axios / WebSockets for instant UI updates and live parking space availability.
- Designed modular React components for interactive parking maps, booking timers, and user profiles.
- Managed state with Context API / Redux to ensure smooth data flow and fast load times.

SOFTSKILLS

- Willingness to learn and improve
- Good attitude and responsibility
- Ability to follow instructions and ask questions when needed
- Cooperative and supportive team member
